

PRESS RELEASE

Triple P Again Certified Sun Service Manager

Sun Microsystems certification – recognition of Triple P's expertise and experience

VIANEN, The Netherlands, January 24, 2006 — Triple P, supplier of ICT solutions, has again been certified as Sun Service Manager. By awarding this certification Sun Microsystems recognizes the expertise and experience of Triple P as a service partner. Triple P is now one of four Sun Service Managers in the Netherlands.

Sun Microsystems sets stringent standards in business, technology, quality and logistics for its certified Sun Service Managers. Triple P came through the audit with a top score on all four counts. “Our big customer base has strong demands towards quality of services. They are looking for a wide offer in knowledge and services covering their total ICT infrastructure”, says Jan Engel, Operations Manager at Triple P. “The Sun Service Manager Certification enables Triple P to sell and provide the services of Sun Microsystems independently. Triple P offers broader services, better suited to the customer’s needs and wishes. So we can offer our customers more added value.”

Certification as a Sun Service Manager shows that Triple P has qualified personnel in-house and that the service it provides for the systems of Sun Microsystems meets the Sun standards. Triple P’s flexible service organization can fully satisfy the needs of customers with high demands.

Triple P has a large installed Sun Microsystems base – the result of a long partnership with the customers. Customers can be sure of continuity and they only have to deal with one point of contact. Triple P offers a comprehensive package of service solutions and can access the expertise of Sun Microsystems itself.

About Triple P

Triple P (Other OTC: TPPPF) designs, supplies, builds and manages ICT-solutions that in an efficient way contribute to your company's results. The three p's - people performance and partnership - are the basis for long-lasting and successful relationships with our customers.

This release contains a number of forward-looking statements based on current expectations, including potential financing plans and the impact of restructuring plans. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "believes," "anticipates," "plans," "expects," "intends," and similar expressions are intended to identify forward-looking statements. Actual results may differ materially due to a number of factors which include, but are not limited to: overall ICT- spending and demand for ICT services in the Netherlands; the timing of significant orders; the ability to hire, train and retain qualified personnel; the total amount of severance and other costs needed to complete the Company's restructuring plans and fierce competition.
